

Microsoft® Office Word 2010: Level 1

Course Specifications

Course length: 1.0 day(s)

Course Description

Course Objective: You will create, edit, and enhance standard business documents using Microsoft® Office Word 2010.

Target Student: This course is designed for students who wish to learn the basic operations of the Microsoft Word to perform their day-to-day responsibilities, and who want to use the application to be more productive in their work. It provides the fundamental knowledge and techniques needed to advance to using more complex Word features such as protecting your documents and usage of ligatures.

Prerequisites: To be successful in this course, you should be familiar with using personal computers and you should have used the mouse and keyboard. You should be comfortable in the Windows environment and be able to use Windows to manage information on the computer. Specifically, you should be able to launch and close programs; navigate to information stored on the computer; and manage files and folders. To ensure your success, we recommend you first take one of the following introductory Windows courses, such as either of the following, or have equivalent skills and knowledge.

- Windows XP Professional: Level 1
- Windows XP: Introduction

Course Objectives

Upon successful completion of this course, students will be able to:

- Identify and work with basic Word 2010 tools and features.
- Edit text in a Word document.
- Modify the appearance of text in a Word document.
- Insert special characters and graphical objects.
- Organize data in tables.
- Proof a Word document.
- Control the appearance of pages in a Word document.
- Print a Word document.
